A significant increase in remittances entering the country contributes to an increase in the population's income and, as a result, to an increase in consumer spending.

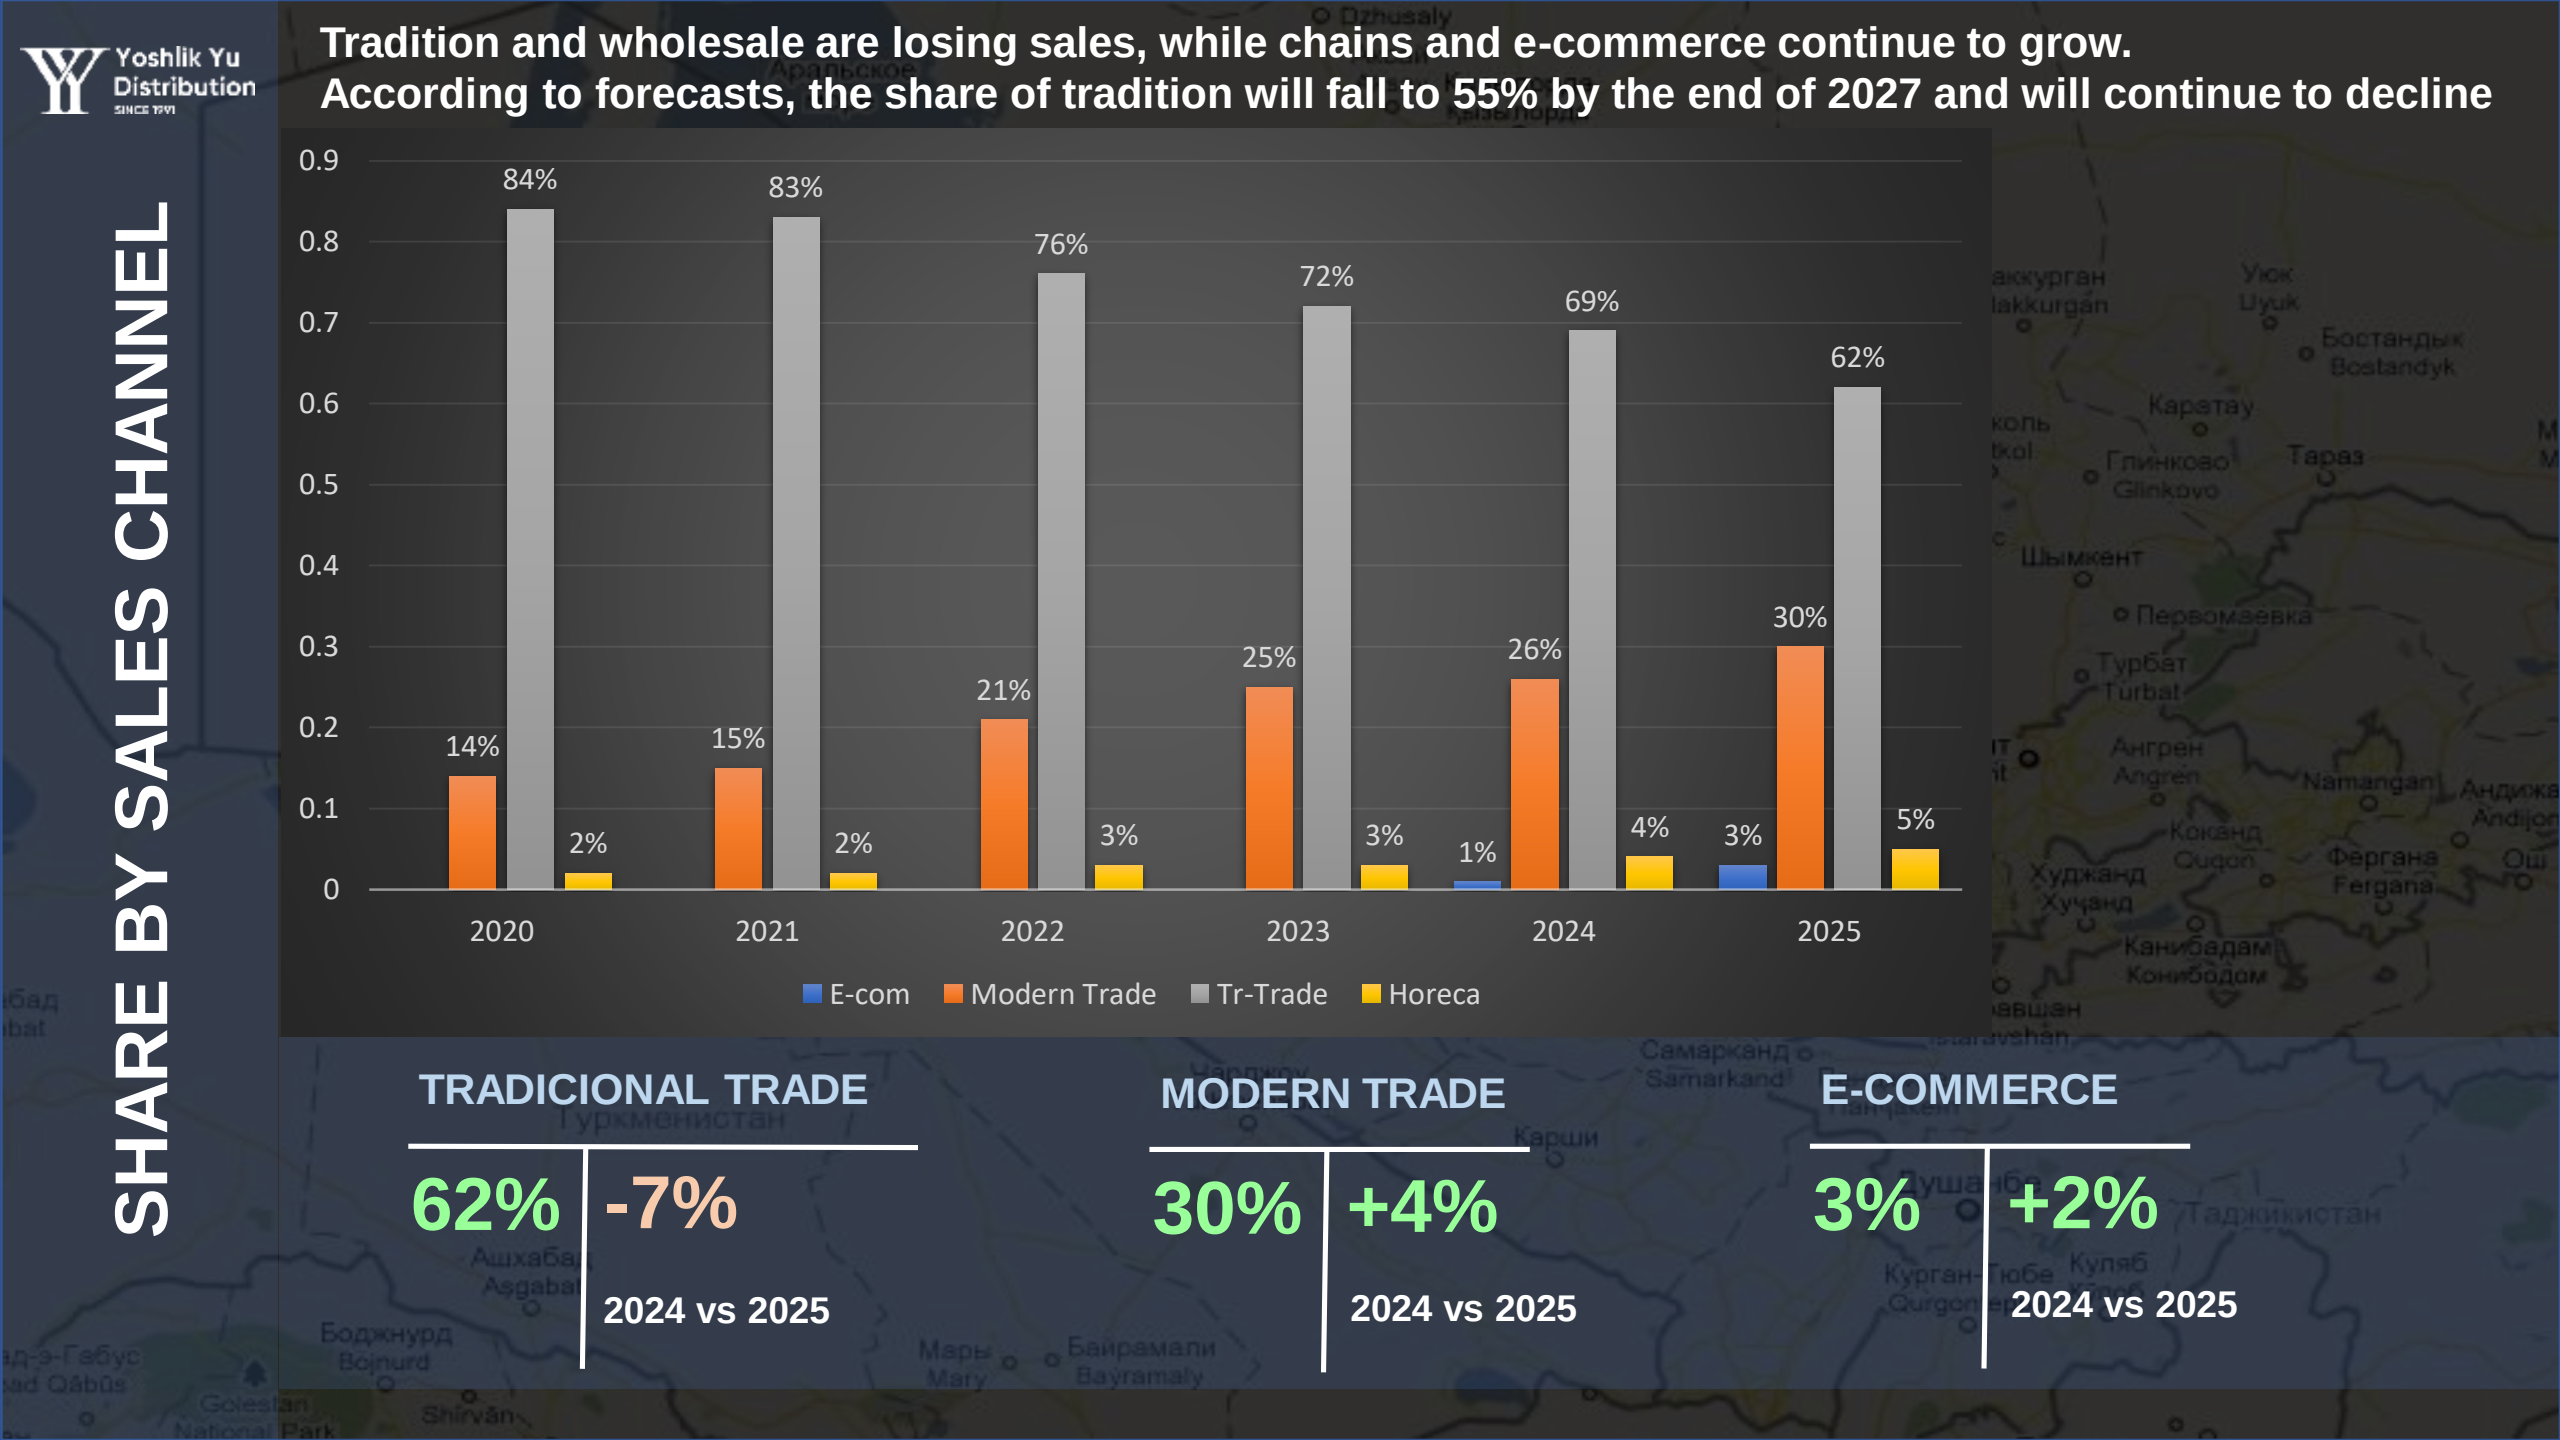

Higher wages also stimulate consumption, increasing the purchasing power of citizens.

Reforms aimed at improving the business environment, increasing investment attractiveness and developing key sectors also make a significant contribution to economic growth

Korzinka is the number one retail chain in Uzbekistan in terms of sales. The chain has the largest customer flow.

KEY ACCOUNT

Small chains and new formats gaining momentum:
